EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. P. Jewik on 06-12-03.

The application has been amended as follows:

Specification

Please replace the Title of the invention for: "Semiconductor Package Comprising Vertical Power Transistor"

The following changes to the drawings have been approved by the examiner and agreed upon by applicant:

Drawings

All of the cross hatching patterns should be selected from those shown on page 600-81 of the MPEP based on the material of the part. Also see 35 CFR 184 (h)(3) and MPEP 608.02.

In order to avoid abandonment of the application, applicant must make these above agreed upon drawing changes.

Allowable Subject Matter

The following is an examiner's statement of reasons for allowance: The claims as amended recite a semiconductor die package comprising a semiconductor die comprising a vertical power transistor and the specific structural locations of the gate, drain, source and ground regions with respect to one another, and with respect to a bus bar. The above specific limitations in combination with all other features recited in the claims make the claims allowable over the prior art. These specific features are neither obvious over nor anticipated by the prior art of record, which fails to, either alone or in combination, anticipate the invention as claimed. Hence the notice of allowability included herein.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
